Ms. Blochlinger, President
Tifa Square
Millington, New Jersey 07946

Re: Asbestos (Millington) Dump Site
Administrative Order: Index No. CERCLA-50103

Dear Ms. Blochlinger:

This letter is in reference to your March 16, 1988 letter, in which you requested the Environmental Protection Agency(EPA) to delete the "uncontaminated" portion of the Millington Site from the National Priority List(NPL).

A site can be deleted from the NPL when one or more of the following deletion criteria has been met.

- 1) EPA in consultation with the New Jersey Department of Environmental Protection(NJDEP), has determined that responsible parties have completed all appropriate response action.
- 2) EPA in consultation with NJDEP has determined that all appropriate Fund - financed response actions have been completed and that no further cleanup by responsible parties is appropriate.
- 3) Based on a remedial investigation, EPA has determined that the facility poses no significant threat to public health, welfare, or the environment and, therefore, construction of remedial measures is not appropriate.

Since none of these three criteria has been satisfied, neither the entire site nor any portions if it, including those portions referred to as "uncontaminated" can be deleted from the NPL.

Yours sincerely,

Nigel Robinson, Project Manager
Site Compliance Branch
